

DANIEL FLANNERY PRODUCTIONS, INC.

Letter of Recommendation

To Whom It May Concern:

Kristina Stieffel is a well-rounded individual with many great ideas and talents to offer. From what I have seen and learned she has established herself as a dancer, singer, actress, director, choreographer, instructor, pianist, costumer, designer, producer, and composer. When you first take a look at Kristina you see a young woman in front of you, and without hesitation you could not even begin to guess what she has already accomplished and all the experience she has accumulated. If you take one look at her resume or even her website you will be able to see what a highly talented individual she is. Kristina has already obtained her BA in Theater- Design from the University of California, Santa Barbara with an overall major GPA of 3.98 while working as a dance, voice, and piano instructor in Simi Valley. She traveled every weekend and drove an hour and a half just so she could work and go to school simultaneously. Kristina is a very dedicated person no matter what she does. She is an over-achiever with a great personality. Kristina was one of my students at the University of California, Santa Barbara, and she was a joy to have in my class, and we will continue a great friendship for years to come. I have also met and discussed with her on several occasions to give her opportunities to work on my pending projects. She is an incredible asset to have. One thing I know is, wherever Kristina ends up she will bring it all to the table and give it her best. She will be a great addition to your company if you give her the chance. Please feel free to contact me if you have any further questions or concerns. Thank you.

Sincerely,

Daniel Flannery
